WORK EXPERIENCE

IT INTERN

OAKWOOD WORLDWIDE | JUN 2015 - MAR 2017

My duties spanned those of a business analyst and UX generalist:

- Lead a pilot study to restructure the inventory process for branches nationwide and designed an app that scans bar codes to an exportable spreadsheet
- Performed QA checks on new web apps
- Elicited requirements from branch managers
- Evaluated the workforce management app used by field associates
- Implemented a best practices program to promote efficiency and better performance in the field
- Created user guides in English/Spanish
- Created Visio diagrams for system relationships
- Recorded/edited videos on performing certain tasks (generating a report, using an app to test internet connection, etc.) for the company employees
- Other tasks involved creating reports and doing audits using Excel

STUDENT ASSISTANT

UCI LAW LIBRARY | AUG 2014 - JUN 2016

My duties were to check-out materials to law students, take phone calls and assist callers with finding material in the library, update material in the law books, shelf read, and enforce the library access policy.

MATH TUTOR

UCI UPWARD BOUND | JUN 2012 - JUL 2012

As a math tutor, I helped high school students with their assignments and assisted the instructor with grading.

RELEVANT COURSEWORK

USER INTERFACE SOFTWARE | FALL 2016

- Developed HTML, CSS, and JS skills through the creation of a responsive online portfolio

SENIOR DESIGN | WINTER - SPRING 2016

- Worked in partnership with Ageless Alliance, a non-profit organization that combats elder abuse, to develop a platform that bridges volunteers with elders in need

HUMAN-COMPUTER INTERACTION | WINTER - SPRING 2015

- Conducted observations and interviews of UCI students as part of a creative interaction design group project
- Created personas, storyboards, wireframes, and paper prototypes
- Conducted usability testing of a learning management system for interface evaluation and delivered a findings document

PROJECT MANAGEMENT | WINTER 2015

- Developed and utilized project integration management skills such as analyzing scope, time, and cost management for managing IT projects
- In 10-weeks, worked with group to develop a website for a new student organization on campus
